Best Practice: I

1. Title of the Practice : Guidance and Training for Competitive Examinations

2. Goal: To inform and train students for the competitive examinations held by various Government Recruitment Boards and Non-Governmental Agencies. To follow the goals we had decided some objectives with which we can train and guide the students.

Objectives:

- To inform the students regarding competitive examinations held at various levels by various agencies and Boards.
- To guide the students regarding the format, syllabus, paper style and eligibility for a particular post.
- To arrange various programmes for career orientation and inspire students to take interest in them.
- To take lectures to guide them and teach them how to prepare for the exams.
- To provide them books, material and sources for the competitive exams.
- To help them fill up and submit the on-line Application forms.

3. The Context:

It is a dream of every student to get a good job and be self-dependent as early as possible. These students are not so aware about how and where to apply to get a good job. They have doubts regarding the eligibility and scope while studying for graduation. Most of them think that they cannot apply anywhere before graduation. Some such misconceptions are removed from the students by the Career Guidance Cell in our College. In our rural, tribal area, majority of the students do not have any resources to start their own business. It becomes our duty then to guide and show the students the right access where they can get jobs. We help them by showing right direction and by preparing them for better performance. Students are directed to find out proper jobs available in various government departments, NGOs and private companies. The rural and tribal students need our guidance at every level and we provide it by running this Cell in the college. Students are trained for the competitive exams. We brush up their General Knowledge and provide books, magazines and conduct exams and tests. We have also conducted mock interviews to boost their confidence level.

4. The Practice:

- For the Training and Guidance, we have worked out a specific structure in which we conduct a regular lecture on every Saturday. Every year more than 100 students attend regular lectures. This year around 160 students have participated in the activity. In the special lectures we deal with the current topics, G.K., Reasoning ability and numerical ability. The tests also are taken on the relevant topics and later the solutions are provided to the students. Students who performs well are rewarded.
- Advertisements of the vacant posts and related exams are displayed on the notice board. Students registered in the Cell are informed by way to SMS about the vacancies. They are also helped in filling up and submission of online forms.
- 9 Magazines and Journals related to career and competitive exams are subscribed by the Library. Books and Digests for Ready Reference are also provided by the Library.
- Expert Lectures also are arranged sporadically.
- Our students participated and performed well in various competitions like University Gardi Chair Competition, Vikas Vartul, Bhavanagar and University Quiz competitions and performed considerably well.

5. Evidence of Success: Year: (2016-17)

Our constant perseverance and pursuit for guiding students and brighten their future, has yielded good results also. Here are some instances.

- 1 students got through NET/SIET.
- 35 students have been selected as, PSI, Accounts Officers, Talati, Clerk, Govt. appointed teacher,. (The actual number may increase. But we are not able to maintain the data.)etc.
- 25 students have been appointed in posts of Police Constable, Inspector, BSF, Indian Post, Railway etc.
- Our students were made aware about the competitive Exams due to our efforts and they started taking part and succeeding in them.
- We also made them about the standard of books. They started reading and referring to reputed publications by Universities and Government. They could also realize and feel the difference.
- The students got attached with the institution as we even helped them in online submission of application forms. In rural areas the Cyber cafes charge high for net surfing. We provided them the service at no profit- no loss basis. These students felt obliged to the institution. Above facts indicate our sincere efforts in the direction of guiding our students towards brighter future. We take pride in our efforts and believe to perform better in future.

6. Problems Encountered and Resources Required:

⚡ Problems Encountered:

- As Khedbrahma is a distant place, very often the Resource Person coming from cities like Ahmedabad could not reach in time. On such occasions the local faculty had to manage the things.
- Our students also due to some reasons did not attend the classes regularly. As a policy, we started taking token amount as deposits and by taking deposits we saw that students became more responsible and regular. On the basis of the attendance the deposits were returned to them.

⚡ Resources Required:

- The Lectures arranged for the Competitive Exams are planned and managed by the faculty voluntarily.
- For the Special arrangement of Training and Coaching classes we have tried to seek monetary help from either UGC or State Government.

7. Notes:

- This activity has been publicized by prospectus, website, Orientation Programme, personal meetings of the students, etc. It is also verified that the students who have genuine interest in the activity and deposits are taken from them to make them more responsible.
- When the Career Guidance Cell assures the students for every kind of help, it increases its accountability and reliability.
- It is a noble task to provide assistance and guidance to the needy students. Our experience says that it helps us to develop a lifelong relationship with the students.
- The special lectures of career guidance should be arranged either in the slot after college hours or on weekends so that alumni students also can participate.
- A boosting of spirit is also needed in case of failure of the student at some level. They should be advised to appearing in exams without losing the spirit as many failures fetch disappointment with it. A faculty conducting the classes has to stand with the student in his bad times and has to inspire him/her for hard work..
